

## REPAIR AND OVERHAUL INSTRUCTIONS

## INSTRUMENTS

## TECHNICAL INSPECTION REPORTS L53

1 Repair Depots or Overhaul Contractors on receipt of 6A, 6B, 6J or 6W items tagged with an Unschedule Removal Tag (L54) are to prepare a Technical Inspection Report (L53) only if the item has less than 500 hours operating time. Items with 500 hours and over operating time ARE NOT to have Unschedule Removal Tags attached or Technical Inspection Reports submitted on them as instructed in EO 00-10-1, except as requested by AMCHQ.

2 Operating Units are still required to complete Stats 325 on all unscheduled removals as per EO 00-10-1, this action is required for statistical purposes.
